AMRUTHA CHAPPA

amruthachappa@gmail.com +91-9010777738 LinkedIn GitHub Coding Profile

Career Objective

Final-year B.Tech (AI & ML) student, CGPA 9.26, with a full-stack internship and 3 shipped projects in React, Node.js, Express and MongoDB. Builds secure REST APIs, auth flows and fee/transaction workflows. 300+ DSA problems solved; 2nd place at a national hackathon. Seeking a Software Development Engineer internship to build scalable, reliable products; available to start immediately.

Internship

YugantaAI **May 2026 – July 2026**

Full Stack Developer Intern

- Built and deployed MERN web applications covering UI, REST APIs and MongoDB.
- Designed RESTful APIs with JWT authentication to secure backend endpoints.
- Optimized MongoDB schemas and queries, for secure, efficient data access.

Projects

KRR BrightMinds School Management System **May 2026**

- Developed a full-stack school management platform for admissions, hostel management, transport services, and fee collection.
- Built online admission and hostel application workflows with dynamic room allocation and application tracking.
- Designed responsive dashboards and REST APIs for administrators, students, and parents.

Tech Stack: React.js, Node.js, Express.js, MongoDB, Tailwind CSS, REST APIs

HostelBuddy **Jul 2025**

- Developed a full-stack hostel management system enabling room applications, automated allocation, fee tracking, and warden–student management.
- Built a secure and scalable platform with real-time updates and a clean Vue.js interface.
- Implemented real-time status updates and application workflows, reducing allocation effort for wardens.

Tech Stack: Vue.js, Express.js, Node.js, MongoDB

Quantum AI Drive – Quantum Proof of Location **Feb 2026**

- Developed a secure AI-based location verification system to prevent spoofing and ensure data integrity.
- Trained a machine learning model and designed algorithms for reliable geolocation tracking.
- Implemented location verification algorithms to improve the reliability and accuracy of geolocation tracking.

Tech Stack: Python, Quantum Computing (Qiskit), Machine Learning, AI, Algorithms.

Skills

- **Languages:** JavaScript, Java, Python, SQL, C
- **Frameworks:** React JS, Express JS, Node JS
- **Tools:** Postman, Git, GitHub, MongoDB
- **Soft Skills:** Effective Communication, Team Collaboration, Problem-Solving
- **Web Development Technologies:** HTML5, CSS, Tailwind CSS
- **Core Concepts:** Data Structures, Algorithms, DBMS, Operating Systems, Object-Oriented Programming

Education

SRKR Engineering College **Sep 2023 – Present**

B.Tech in Artificial Intelligence and Machine Learning; *CGPA: 9.26 (currently)* *Bhimavaram*

Certificates

- Certified in Full Stack Development in Eduskills.
- Certified in NPTEL (DataBase Management System).
- Certified in SQL (Basic) – HackerRank.

Achievements

- Sasi Hackathon (National Level) – Secured 2nd Prize.
- Solved 200+ LeetCode problems and earned a 100 Days Coding Badge.
- Solved 100+ GeeksforGeeks problems, strengthening data structures and algorithmic problem-solving skills.
